

Taraflex™ Isolsport

Isolsport Isolating Membrane is a water resistant insulating fibreglass underlayment that creates a vapour barrier and will protect the sports flooring from subfloor moisture.

Isolsport can only be used on subfloors which contain an effective damp proof membrane and a relative humidity not exceeding 90% RH.

Installation should be carried out in accordance with BS8203-2001, Subfloor to be smooth, hard and clean prior to laying, where applicable the subfloor must incorporate a Damp Proof Membrane. Consult with Gerflor Ltd for recommendations and installation requirements.

Consult with Gerflor Ltd for technical details and to obtain samples.

Flooring: A single layer water resistant insulating underlayment
