pg 2/2

Absorption

Symphony2 entrance carpet has been tested to TNO - W6034 and absorbs 5.6L per m2.

Durability

Class 33, Heavy Commercial

UV Resistance

Some fading may be observed in areas of intense sunlight.

Sustainability

Rino B.V. is committed to the protection of the environment as the PA6 fibre system (Econyl) is made with 100% post-consumer, post-industrial and internal recycled content. The Pureback backing system is 100% free of PVC and plasticise content.

Installation

Symphony2 carpet must be installed by a competent and experienced carpet installer and we recommend the full stick method - more information on the recommended installation procedures is available on our website www.advanceflooring.co.nz or upon request.

Recommended Adhesives

Entrance matting applications - Giltgrip 88 – Gilt Edge Industries Ltd. Applications other than entrance matting - Strongbond 65 – Look Floors, or Polymer 999 PS – Gilt Edge Industries Ltd.

Cleaning and Maintenance

Proper maintenance is one of the most important factors to ensure good performance of any carpet. Symphony2 should be vacuumed daily as it will collect up to 90% soiling before it is tracked into the interior of the building. More information on the recommended maintenance procedures is available on our website www.advanceflooring.co.nz or upon request.

Warranty

The manufacturer provides a 5-year limited warranty.
