DATA SHEET issue 10/16

Greenpad - Gold Coast Carpet Plank Modules pg 2/2

Sound Absorption

Voxflor carpet modules with Mix-Bac™ backing systems can reduce reverberative noise in a commercial office environment.

UV Resistance

Some fading may be observed in areas of intense sunlight.

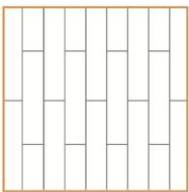

Sustainability

Voxflor is committed to the protection of the environment and all products are manufactured to strict ISO 14001: 2004 standards. All Voxflor Greenpad carpet tiles with PVC and Mix-Bac™ backing systems are accredited by Environmental Choice New Zealand – licence number 3314129

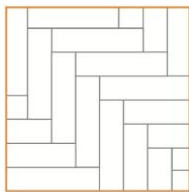

Installation

Gold Coast carpet modules must be installed by a competent and experienced carpet installer and we recommend the full stick method - more information on the recommended installation procedures is available on our website www.advanceflooringsystems.com or upon request.

We recommend the following installation method for Gold Coast

ASHLAR

HERRINGBONE

Recommended Adhesive

Strongbond 65 – Look Floors, or Polymer 999 PS – Gilt Edge Industries.

Cleaning and Maintenance

Proper maintenance is one of the most important factors to ensure good performance of carpet. Gold Coast should be vacuumed daily. In the first instance, we believe a good entrance matting system installed at entry areas will help collect up to 90% soiling before it is tracked into the interior of the building - more information on the recommended maintenance procedures is available on our website www.advanceflooringsystems.com or upon request.

Warranty

The manufacturer provides a Fifteen (15) year limited warranty for castor chairs, delamination and dimensional stability, a lifetime stain, soil and antistatic limited warranty and a 25-year fade resistance, abrasive wear limited warranty.
