Zeno Protect Excellence

Zeno Protect Excellence offers proven performance in four key areas - moisture absorption, dirt 'brush-off', cleanability and appearance retention, making Zeno Protect Excellence one of the most effective entrance floorcoverings that can stop up to 90% of dirt and moisture within 6 metres of entry.

As it is composed of an ingenious combination of small and large 33% recycled, polyamide filaments, this results in a perfect combination to 'brush off' dirt and 'absorb moisture' (absorbing 5.13 litres of water per m2 when tested to ISO 105).

Specify with confidence as Zeno Protect Excellence provides you with safe entrances, is durable and compliant achieving CFR 4.9 kW/M2 when tested to ISO 9239-1. See the technical specifications for more details.

Available in 2000mm wide rolls - 27.5 metre lengths - can be edged.

Zeno Protect Excellence has a 5-year warranty on wear and performance, stairs excepted, conditional on the product being installed and maintained according to the manufacturers recommendations.
