

Description

STC7635 StepTread stair nosing comprises an aluminium bullnose channel with ReTread recycled rubber insert, and is 76mm on the tread and 35mm on the riser. It is a single channel profile and is ideal for use with carpet tiles or broadloom carpet. StepTread STC7635 should be butt joined to the floor-covering. The ReTread recycled rubber insert is supplied separately from the channel for on-site fitting. This conceals the fixings. Supplied in matt anodised natural aluminium.

Material

- Matt Anodised Natural Aluminium
- Standard 3.66m lengths – can be cut to size
- Durable ReTread Recycled Rubber anti-slip insert
- Supplied pre drilled for countersunk screw fixing (screws supplied)
