Connection

Connection Entry Carpet System

Connection is an innovative walk-off entrance carpet with dirt and moisture-absorbing functions. This high-performance entrance mat has a cut pile and is particularly suitable for entrances, staircases, kitchenettes and elevators in commercial environments, such as commercial buildings and medium and large offices.

Connection is made up of several segments, each with a different task. Some segments absorb moisture, while others absorb dirt. The linear pattern diverts attention from the collected dirt.
