DURATAP

Duratap is 100% machine spun coconut fiber yarns that results in a hard-wearing coir mat. DuraTap performs best in small to medium-sized offices and public buildings. Coir is a natural material that looks great, offers excellent durability and absorbs a large amount of dirt and moisture, which means you will save on cleaning costs.

Duratap complies with New Zealand fire safety regulations and passes superior durability testing.

Duratap absorbs eight liters of water per square meter – which is unrivalled in performance. In part due to its construction on a unique glass scrim, Duratap is rarely affected by stretching and is extremely stable. This stability means that it is ideal for wheelchair users and causes no problems for people on crutches or wearing high heels.

Available in 17mm thickness – 2000mm roll widths in 10 metre rolls. Can be cut to custom sizes.

Duratap has the following benefits:

- ✓ Uniform and regular pattern
- ✓ Class 32 wear classification
- ✓ Natural or Graphite looking mat
- ✓ Absorbs 8L per m²
- ✓ Save on cleaning costs, easy to clean and maintain
- ✓ Absorbs dirt and moisture
- ✓ Exceeds fire testing requirements for New Zealand Building Code
- ✓ 100% natural coconut fibre
- ✓ Superior stability allows for wheelchair use
- ✓ Designed on unique backing for stability
